PATCH 52

Scheduled to be released to the field, Sunday, February 08, at 9:00 A.M. CST

Database changes only.

REPAIRS

PROBLEM REPORT		Initiated	Critical
NUMBER	REPAIR	By	Function
	Summary: JPAS Separations part of CRT 03-		
	8391-DoD.		
	Resolution: Modified code to retrieve		
	Cancellations and Corrections to Separation		Fortage al
TD 9451	actions and send the second NOA code to the JPAS interface.	AF	External Interfaces
10 9451		АГ	interfaces
	Summary: Person Summary Didn't Update Education Info.		
	Resolution: Added additional family codes		
	and modified the code to clear the problem with		
Remedy 14186	the update of Education information.	DoDEA	Education
rtomody 11100	Summary: When NPA prints in Paris, the	D 0 D 2 / 1	Laacattori
	From side data is missing on NOA Code 130.		
	Resolution: Corrected the Paris logic to flow		
	the 'From' side of the NPA for T130 Transfer		
Remedy 14332	actions.	CPMS	Other
	Summary: SSAN of first record showing in		
	header row of DMHRS extract file.		
	Resolution: Added a linefeed after the header		External
Remedy 14935	line to clear the problem.	CPMS	Interfaces
	Summary: Failed to process Pay Adjustment action FRM-40207.		
	Resolution: Created a script to delete		
	erroneous Other Pay element entry and		
Remedy 15082	corresponding history records.	AF	Pay
rterricay 10002	Summary: Mass Appraisals creating duplicate	7 (1	ı ay
	appraisal entry.		
	Resolution: Added code to bypass the records		
	that have the same appraisal type and effective		Mass
Remedy 15238		Navy	Appraisals
_	Summary: Change in Position Title NOA 5900	-	
	requires LAC - 5C.		
	Resolution: Change in Position Title for NOA		
	5900 did not require the 5-C code. Modified		
	the code and added NOA 5900 to the list of		
	NOA Codes that do not require 5-C code. The		
Pomody 15200	customization made in GHUHRVAL was	Arm.	RPA/52
Remedy 15399	removed.	Army	KPA/32

	1	1	
	Summary: Pay500s flowing incorrect data		
	when updating Retro RPA Actions.		
	Resolution: Changed the code to "not to		
	populate the part time indicator when it is not		
	required". For example, the part Time Indicator		
	should be blank when the Work Schedule = 'F'		
Remedy 15465	(Full Time).	CPMS	Pay
	Summary: Message not showing our		
	customized Civilian Inbox.		
	Resolution: Modified the Civilian Inbox Form		
	(CIVWFINB) to show all the information in the		
Remedy 15476	Message box for Customized Civilian inbox.	CPMS	In Box
	Summary: No Pay500 records for Termination		
	of TSP Catch up Contributions.		
	Resolution: Pay500 Records to delete TSP		
	Catch up were not being generated when date		
	tracking to terminate TSP. Code was modified		Benefits and
Remedy 15517	to use date track date instead of current date.	CPMS	Entitlements
	Summary: Suspense RIP-WGI-01 errors when		
	Assignment ID has six or more characters.		
	Resolution: An internal assignment id variable		
	was defined as number(5) and has been		
	corrected to the WGI-01 report. Also modified		
	the screen entry variable to pull in the stored		
Remedy 15681	format value from the record.	AF	Reports
TCHICGY 10001	Summary: When in Person/Extra Info, the US	/ (1	reports
	Federal Separation and Retirement DDF was		
	not displaying the correct separation and		
	retirement data fields. Instead, it was		
	displaying data fields tied to the US Federal		
	Person Group1 DDF.		
	Resolution: A script has been created to		
	update the PEI Information Category to equal		
	the Information Type in the Person Extra Info		
	for one employee on Region03. This is to ensure that the correct separation and		
Remedy 15714	retirement data fields are displayed correctly.	AF	Other
Remedy 13714		AF	Otriei
	Summary: Missing/Invalid values in JPAS		
	Investigative Agency LOV.		
	Resolution: Modified Start date of some of the		
	lookup codes so they do not appear in the LOV		
	but validate when loaded through interface.		
	Added new lookup codes and modified the		
	value set		
	CIVDOD_NV_INVESTIGATIVE_AGENCY_VS'.		
	All the lookup codes irrespective of the from		
	date for the lookup type		
	CIVDOD_NV_INVESTIGATIVE_AGENCY		
	will flow from HR to CSU staging lookup codes		
	with lookup type		
	CIVDOD_NV_INVESTIGATIVE_AGENCY will		
Damad: 45707	flow from staging to CSU app table (lookup	CDM4C	Othor
Remedy 15737	codes).	CPMS	Other

	Summary: DOD Correction to NOA 1XX		
	removing Appointment type from Employee		
	Record.		
	Resolution: Modified the Populate		
	Appointment procedures to ensure that the		
	Appointment Type remained in DDF US Fed		_
Remedy 15739	Person Group 1.	CPMS	Corrections
	Summary: LAC Code missing on System		
	Consummated Personnel Actions NOA T352.		
	Resolution: Modified code to insure Legal		
	Authority Code is auto-populated for Transfer-		
Remedy 15746	Interagency process	DoDEA	CAO
	Summary: NOA 002 in Paris source file, the		
	FEGLI/retirement clear text is missing.		
	Resolution: Added code to get the description		External
Remedy 15753	of FEGLI and retirement clear text.	AF	Interfaces
	Summary: Could not delete corrupted RPAs		
	using 'Delete RPA' program.		
	Resolution: A script has been created that will		
	delete the notification records identified in this		
	remedy ticket. The RPAs were previously		
Remedy 15760	deleted.	AF	RPA/52
	Summary: Career Field is not auto generating		
	for RPA acquisition basic data.		
	Resolution: Modified code to auto populate all		
	data into "Acquisition Information" DDF,		
	including "Employee Career Field", "Date Start		
	Certification Requirements" and "Date Level		
Remedy 15761	Certification Due".	CPMS	RPA/52
	Summary: Attempted to process a 501		
	conversion action and received an error		
	message; can't locate the problem because of		
	lack of pertinent decipherable information in the		
	error message.		
	Resolution: Modified the exception error		
	messages for all info types to show better		
	meaning. Added a new function to return		
	description for a given DDF. Added a new		
	message CIV_US_PAR_INFO_TYPE (An error		
	has occurred while trying to retrieve data from		
	PA Request Info Type: &INFO_TYPE. Please		
	check the validity of data or contact your		
Remedy 15762	System Administrator).	AF	Conversions
	Summary: Cannot Process NAVY Unique		
	NOA Codes for Wage Mariners.		
	Resolution: Removed the extra set of		
	business rules that were unnecessary and in		
Remedy 15930	the wrong place.	Navy	RPA/52
	Summary: Changed the data name that prints		
SCR 03-5277-	in block 42 of SF-50 to read "COMP LVL" for		
VOA	BBG/IBB.	IBB	RPA/52
1	•	•	

	Summary: This SCR will create a view called		
	dcpds_appr_emp and two new database		
	accounts afpcsecure1 and afpcsecure2 that will		
	pull a limited amount of data to support the		
	AFPC Secure Web Login Application To		
	verify proper installation, log into both of the		
	new database accounts through sqlplus and		
	issue the command select * from		
SCR 03-7866-AFX		AF	Secure View
0011 00 7 000 7 ll 7	Summary: Associated Reports Not Printing	/ (1	Occure view
	Where Directed (with NPA). The following		
	modifications were made to the procedures.		
	a. A new package was created to direct all		
	reports to the selected printer while processing		
	RPA.		
	b. A new package was designed to generate		
	reports tied to an NPA to go the same printer		
	selected by the user for the NPA, instead of		
	User Profile Printer. It changed the user profile		
	printer to the selected printer, generated a		
	report and then put the actual user profile		
	printer back.		
	c. Changed the procedural call to the		
	automatically generated reports tied to an NPA,		
	to go to the same printer selected by the user		
SCR 03-8040-DoD	for the NPA, instead of User Profile Printer.	AF	Other
	Summary: This SCR is for the new Payroll		
SCR 03-8409-DoD	Status Interface from DFAS.	CPMS	Pay Interface
			,
	Summary: Deleted an NOA 355 RPA that		
007.00.0444.0.0	didn't work correctly in the previous run of the	D DE 4	0.1
CRT 03-9411-D0D	CRT that was part of Patch 51.6.	DoDEA	Other
	Summary : A script has been prepared to fix		
	problems created in the initial run of CRT-03-		
	9418-ARM. This script will update the end date		
	for person record, remove NTE dates from		
	assignment extra info, and create person type		
CRT 03-9418-DoD	usages records.	Army	Other

2849080 TAR 3270360.996 Navy Cancellations		•		
	2849080	TAR 3270360.996	Navy	Cancellations

	Summary: Position Query is cumbersome, too		
	many confusing errors.		
	Resolution: Corrects where in the Position		
	Description form (HRWSPSF), querying a		
	position was taking too long. No longer receive		
	errors when navigating from position to		
	additional position details.		
	Bug 3020284		
	Corrects a bug in the patch that fixed bug		
Remedy 14351	#3020284, users were getting error frm-40403.		
Oracle Patch	This will correct the error.		
3328102	Bug 3225313	Oracle	Position
	Summary: FRM-40735 Special 1 trigger error		
	when Date Tracking.		
	Resolution: When the user attempts to date		
	track on the Person EIT form or the		
	Assignment EIT form, following error message		
	is raised:		
	FRM-40735: SPECIAL1 trigger raised		
	unhandled exception ORA-06502.		
	ORA-01403: no data found.		
	This patch delivers the necessary changes to		
	resolve this issue.		
	Steps to verify patch corrected the problem:		
	1. Login into HRMS application using HRMS		
	Manager responsibility.		
	2. Navigate to People >> Enter and Maintain		
	form.		
	3. Query for an Employee.		
	4. Click on 'Others' button and select 'Extra		
	Information' from the List of Values to navigate		
	to 'Person Extra Information' form.		
	5. Select 'Alter Effective Date' icon and change		
	the effective date. You should not get any		
	unhandled exception error.		
	6. Navigate back to the 'Enter Person' form.		
	7. Click on 'Assignment' button to navigate to		
	Assignment form.		
	8. Click on 'Others' button and select 'Extra		
	Information' from the List of Values to navigate		
	to 'Assignment Extra Information' form.		
	9. Select 'Alter Effective Date' icon and change		
D 1 11005	the effective date.		
Remedy 14920	You should not get any unhandled exception		
Oracle Patch	error.		011
3268376	TAR 3398274.996	Navy	Other

	Summary: NOAC 292 Return to Duty raises		
	error APP-PAY-07949.		
	Resolution: Previously when an employee		
	was on a Suspended Assignment (e.g. LWOP),		
	and a personnel action was processed for the		
	employee, the Return to Duty personnel action		
	would fail with the error message: APP-PAY-		
	07949: An assignment status type with a		
	system status of ACTIVE_ASSIGN must be		
	specified. The Return to Duty action failed		
	because the personnel action was not		
	considering an intervening personnel action that		
	may have been processed while the employee		
	was on a Suspended Assignment. The Return		
	to Duty actions will now recognize intervening		
	personnel actions, and avoid failing upon		
	update HR; all intervening actions will be		
	recognized and considered when changing the		
Remedy 14947	Assignment status from Suspend to Active.		
Oracle Patch	TARs 3511269.996 / 3518432.999, Bug		
3324737		Oracle	SF52/RPA
	Summary: Update of position data element		
	"UIC" no longer produces Pay500.		
	Resolution: The PRE-UPDATE trigger on		
	Position Description form HRWSPSF has the		
	code Trigger set to 'PRE-INSERT', the Trigger		
	should be set to 'PRE-UPDATE'. This causes		
	custom code not to fire when a position is		
	updated.		
Remedy 15244	Note: Applying the patch for bug #3328102		
Oracle Patch	addresses the performance problem as well.		.
3328102	TAR 3515027.996; Bug 3328102	Oracle	Position
	Summary: Blank oracle e-business suite		
	window after closing an RPA.		
	Resolution: Patch contains the fix to open the		
	forms session in a new browser window from		
	notification details page instead of using the		
	same browser window.		
Damad: 15120	TAR 3580449.999		
Remedy 15430	NOTE: Please see attachment PR 15430 –		
Oracle Patch	Advisory note for the Workflow Inbox Patch 52.doc for additional information.		
3188610	52.doc for additional information.		
	Summary: No pay500 output on position		
	update of SOID.		
	Resolution: We are getting error because		
	changing the flex field segment value with the		
	same value is making the record status		
	changed but not firing WHEN-VALIDATE-ITEM		
	trigger of Date Effective Name that asks for		
	Date track mode from the user. Defaulting		
	CORRECTION mode will fix this. If actual		
	change is made to the segment value, for		
Remedy 15522	example, value is different then Select Date		
Oracle Patch	track mode window will show up. The PAY500		
3328102	is now changing the SOID in the position record	Oracle	Position
	., ., . = = = = = = = = = = = = = = = =		-

	Bug 3255936		
	Cummanus Draviavalusukan a vaasundatad a		
	Summary: Previously when a user updated a NOAC 825 (Separation Incentive) and the		
	Amount was greater than 25% of the Basic Pay	,	
	the user would receive an error. Normal edits do not allow this, however, when an employee		
	separates from the Federal Government on a		
	'buyout', the person is entitled up to an amount of \$25,000. For example, if the employee's		
	Basic Salary is less than \$100,000 then this		
	type of buyout (of \$25,000) will exceed 25% of		
	Basic Pay. Now, when processing NOA Code 825, the Award Amount can exceed 25% of		
Remedy 15615	Basic Pay.
